Did you know? You can send a text message from your cell phone to an e-mail address, even if you do NOT have internet access on your cell phone. **It's true!**

Just type an e-mail address into the "TO" field of your text message, instead of a phone number.

Your e-mail or text message will come to UPD without a name or number attached to it in order to keep the tip anonymous. UPD may send a message back, requesting more information.
