ABC 2016 Fall Summit

Emergency / Disaster Management

Department of Emergency Management

September 7 & 8, 2016
Mission: DEM’s mission is to support students, faculty, and staff to ensure that as a university we work together to build, sustain, and improve our capability to prepare for, respond to, recover from, and mitigate all hazards.

Operational Modes:

- Steady-state operations, in which it maintains routine watch operations and situational awareness.

- Heightened alert/Response operations, which requires reactionary operations as a result of a threat or actual event.
Department of Emergency Management

Recovery
Actions taken after an emergency to restore and resume normal operations.

Mitigation
Efforts to reduce the effects or risks associated with hazards.

Response
Actions taken during an emergency to save lives, property, and the environment.

Preparedness
Actions taken prior to an emergency to facilitate response and promote readiness.

Continuity
