As required by the subject Request for Information (RFI) all questions, interpretations or clarifications of this RFI must be requested in writing.

1. The final section of the submittal asks for the following:

   A minimum of five (5) references of clients with similar programs. Provide contact names, telephone numbers and email addresses.

By "clients with similar programs," do you mean other IEP owners located on university or college campuses? Is it possible to provide references from our partner schools and/or former program coordinators and teachers?

Response:  Respondents should include 5 references for college or university campuses where the Respondent has an existing or past IEP program. If these 5 references cannot be met, respondents may choose to provide alternate references of a professional nature, with descriptions of the association with each, for assessment by the evaluation committee.
