* imageRUNNER ADVANCE C5051/C5045 models
imageRUNNER ADVANCE C5051/C5045/C5035/C5030

Powerful performance takes on a whole new form. Big solutions in a compact size.

Move into the future
Not until now have powerful productivity, user-centric control, impressive quality, and dynamic workflow looked so good. Beyond the sleek body and soothing color tones of the Canon imageRUNNER® ADVANCE C5051/C5045/C5035/C5030 models lies what could be one of the most significant investments in your business.

Ambition realized
With the Canon imageRUNNER ADVANCE C5000 Series models, Canon has realized an ambitious goal. Now small departments and workgroups can enjoy stunningly simplified and productive workflow. A dramatically new platform redefines how your team will access, share, and manage communications. The smooth integration of hardware, software, and services ensures that every user experiences remarkable efficiency.

Smaller is greater
Today, business requires us to do higher-quality work in less time. The imageRUNNER ADVANCE C5000 Series models feature a range of collaboration tools, streamlined one-step operations for complicated tasks, and the power to perform multiple jobs concurrently—all in a compact footprint.

User-centric from all viewpoints
Users will be delighted by the friendly interface and their ability to access functions with ease. IT administrators will applaud the new centralized device management solutions and vigorous security features. And business owners will value automated workflow options that boost productivity and help reduce costs.

Even greener
Canon’s commitment to protecting and sustaining the environment is stronger than ever. With the imageRUNNER ADVANCE Series, Canon has incorporated new green technologies that further conserve energy and resources, reduce CO₂ emissions, and help prevent pollution.

A truly advanced partner
Great partnerships deliver a strong competitive advantage. These imageRUNNER ADVANCE models offer cutting-edge tools and resources that allow you to do work more rapidly. As a result, you’ll have the opportunity to focus on the powerful ideas that will advance your business—now and in the future.
ADVANCED DESIGN

World-class efficiency, outstanding quality, amazing ease. Inspired innovation.

A beautiful way to work
The imageRUNNER ADVANCE C5000 Series models are designed to offer a multitude of resources in a space-saving footprint. The warm, natural color palette integrates seamlessly into any office environment, and the smartly designed new TFT control panel is comfortable and easy to use.

Power for exceptional performance
Accomplish multiple tasks concurrently with the exceptional speed your work demands. These imageRUNNER ADVANCE models incorporate Canon’s new Advanced imageCHIP system architecture, which uses two processors to deliver outstanding multitasking performance.

The image processor board works with the scanner, adjusts image size, and ensures superior image quality and super-fast processing. The information processor board controls the user interface and coordinates device networking and connectivity.

Simpler, more intuitive operation
Completely redesigned, the highly responsive, flexible user interface is all about simplicity and ease. A new “slide-and-tilt” capability allows users to adjust the control panel to a comfortable and accessible position. The imageRUNNER ADVANCE C5000 Series models have a range of features that allow users to accomplish so much more in so much less time.

Size. The large 8.4” full-color, high-resolution TFT screen boasts wide viewing angles and exceptional clarity.

Menus. Two menus streamline your workflow. Just a stroke of the Main Menu keys gives you instant access to system functions. The Quick Menu powers productivity by allowing you to combine and access routine tasks at the touch of just one button.

Customization. Organize the onscreen buttons to fit the way you work by determining their number, size, and layout. And you can even select an onscreen background.

Tutorial. If users have “how to” questions, these Canon imageRUNNER ADVANCE models have a tutorial button right on the screen. Quickly access simple step-by-step instructions.
Walk-up convenience

The imageRUNNER ADVANCE C5000 Series models are designed to make your work easier. Now you can scan to, or print from, a USB thumb drive. Even expand connectivity options to include memory media such as an SD card or CompactFlash card.* To enter data more comfortably, an optional keyboard may be attached.

A brilliant impression

Canon’s next-generation imaging solutions incorporate stunning image quality with amazing speed. With 1200 x 1200 dpi print resolution, text is sharp with smooth corners, and images have subtle gradient transitions. Innovative technologies, including Canon’s fine-grained pQ toner, produce rich, clear, vivid images with a smooth, high-quality finish.

Stellar productivity

Canon has raised the bar on productivity and cost control. Introducing imageRUNNER ADVANCE Essentials—specially created solutions that seamlessly connect the MFP to the user. Now right from their PCs, users can perform personal document workflow tasks. Productivity is enhanced by assigning complicated tasks to a single button. Administrators can track and manage use and even influence behavior. And with amazing ease, the imageRUNNER ADVANCE C5000 Series models can quickly link to your external systems.

Keep running

With the imageRUNNER ADVANCE C5000 Series models, you’re assured the ongoing productivity your business demands. Status notifications keep you ahead of the game, and toner and paper can even be replaced on-the-fly. And if the correct paper size or stock for a job is unavailable, the system can begin the next job without delay to help maximize uptime.
**ADVANCED WORKFLOW**

Simple operation, seamless integration. A forward-thinking approach to keep work flowing.

**Accelerated performance**
Office environments demand powerful performance and versatility. On every count the imageRUNNER ADVANCE C5000 Series systems deliver.

**Start up.** Shorter warm-up and faster first-copy times quickly get you up to speed.

**Scanner.** Rapidly convert paper documents to digital files with the 150-sheet capacity, ultra-fast single-pass duplex document feeder (C5051/C5045) or the 100-sheet auto duplex document feeder (C5035/C5030).

**Send.** Files move at an outstanding pace across the network with Universal Send and formats such as High Compression PDF/XPS which significantly reduces file sizes.

**Processing.** Large color files and complex print jobs are easily and rapidly processed with the new system architecture.

**Finishing.** A choice of modular in-line accessories makes professionally finishing documents simple.

**Smart productivity**
With a wide range of software solutions, Canon gives your business the edge in saving time, reducing costs, and improving quality. The Workflow Composer utility reduces multi-step and frequently performed operations to the touch of one button on the Quick Menu. You can name interface buttons to match your business processes. And with Canon’s MEAP® development platform, you’re able to take advantage of adding applications to extend your capabilities.

**Right from your PC**
Whether from the imageRUNNER ADVANCE model or your own desk, you can have direct access to the functions that make your work easier. The imageRUNNER ADVANCE Desktop utility features a clear, comprehensive PC interface that transforms your computer into a central command station. Now you can perform personal document workflow tasks, such as archiving, merging, and distributing, all from the desktop with “drag-and-drop simplicity.” You can also search for documents with ease, and even monitor the status of your work from any location on the network.
Scan, store, and collaborate
Designed to streamline workflow and meet each user’s needs, these models let you easily save, store, and access scanned documents in different locations. Simply select a destination and scan the original. Using built-in spaces like Mail Box and Advanced Box, or external spaces such as memory media or another networked location, you can choose the most efficient way to work.

Advanced Box. Canon’s new built-in document sharing solution enhances the ability of multiple users to collaborate. Files can be stored in Advanced Box shared folders and accessed from multiple locations including a PC or other networked imageRUNNER ADVANCE systems. When privacy is required, files can be saved to personal folders.

Scan, send, and collaborate even more
In today’s collaborative business environment, people need to share and distribute documents to multiple network destinations. With the imageRUNNER ADVANCE C5000 Series models, Canon makes this exceptionally easy.

Universal Send. In one simple operation, you can distribute scanned documents to multiple destinations, such as e-mail and fax destinations and network folders. Now Universal Send provides functionality with an expanded range of file formats, including High Compression PDF/XPS, Adobe PDF Reader Extensions, Searchable PDF, and Encrypted PDF.

Fax. Readily handle large volumes of fax documents and keep information flowing. These imageRUNNER ADVANCE models now support up to four fax lines and have the ability to share the fax function of another imageRUNNER ADVANCE model on the same network. With the Job Forwarding feature, incoming faxes can be automatically routed to other systems, users, or destinations, including the Advanced Box file sharing space.

Extensive print solutions
Canon’s proprietary UFR II print technology is standard with these models. Options including Adobe® PostScript® 3” and PCL 5c/6 are also supported.

Enhance print productivity for multiuser, color-intensive environments with Canon’s imagePASS and ColorPASS* print controllers. With advanced job and color management tools, you’ll enjoy efficient workflow and outstanding output.

Today users want more control over their print environment. Canon’s new Driver Configuration Tool delivers just that by allowing you to set specific defaults and custom profiles. You can control costs by selecting easy-to-use features such as duplex printing or enhance security by opting for a forced watermark.

*ColorPASS is only supported by the C5051 model.
ADVANCED CONTROL

With productivity paramount and security vital, Canon offers powerful management solutions.

Robust security
The imageRUNNER ADVANCE C5000 Series models offer multilayered solutions that help businesses meet their goals of privacy and protection yet keep work flowing. From installation to retirement, this Series has solutions that safeguard your confidential information and support security compliance.

Access Management System. Limit access by user, group, or role. You can even limit access only for specific functions such as Universal Send.

Document Scan Lock and Tracking. Embed hidden tracking information in a document to restrict unauthorized copying or scanning, and to track the origin.

Adobe LiveCycle Rights Management ES Integration. Protect access to documents throughout their duration. After documents are scanned, specify security policies and select authorized recipients.

Trusted Platform Module. Safeguard vulnerable settings such as passwords with a new security chip featuring tamper-resistant hardware.

Data Encryption and Erase Options. Disguise information before it’s written to the hard drive, and permanently remove it by overwriting when the job is complete.

Removable Hard Disk Drive. With this option, the Hard Disk Drive can be removed and placed in a secure location when not in use.

Centralized control
Control individual models. Remarkably intuitive, the Remote User Interface gives you centralized control right from your desktop. With this easy-to-use Web-based interface, you can access the information for any individual device. Check supply levels, monitor jobs, and stay completely informed.

A fleet of systems. Highly scalable, the imageWARE Enterprise Management Console offers one central point of control for all systems across your organization. This Web-based utility makes it easy to install and manage multiple Canon and third-party networked devices. Uptime is maximized by your ability to monitor jobs and supply levels—even receive e-mail notifications if toner is low or a tray is out of paper.
ADVANCED PERFORMANCE

Professional capabilities, true collaboration, and incredible reliability—an impressive return on investment.

Lots of uptime
Canon builds in signature reliability. Because Canon offers remote service monitoring, automated dispatching, a synchronized hard-drive backup, and on-the-fly replacement of supplies, users can count on virtually nonstop operation. And with access to the latest technology and simple, clear upgrades, you can power through your jobs, giving you more time to devote to other business areas.

A positive bottom line
Cost-savings are more crucial than ever. Now with Canon’s imageRUNNER ADVANCE Tracker* utility, you have the power to identify, evaluate, and manage print costs. View usage, analyze color output, or encourage double-sided printing right from your desktop. Allocate costs by department, project, or client. With the ability to monitor multiple networked devices and receive automated e-mail reports, you’ll stay firmly in control of the bottom line.

Rise above the crowd
Give your business a competitive edge by conveniently producing professional-quality presentations, reports, and newsletters. Without expensive outsourcing, you can generate accurate, high-impact color or crisp black-and-white results on demand, right in house. With the flexible finishing capabilities available on the imageRUNNER ADVANCE C5000 Series models, the possibilities are almost endless.

Easy integration
You’ll appreciate the seamless integration of these models into your network. Readily save or retrieve files from a networked PC or another imageRUNNER ADVANCE model. If a model is busy, scan or print documents from another on the network. With Remote Fax you can share the fax function of another imageRUNNER ADVANCE system, reducing the cost of maintaining multiple fax devices and lines. Improved connector and link support enhances communication with existing systems and integrates with those you acquire in the future.

* Included with imageRUNNER ADVANCE Essentials.
ADVANCED RESPONSIBILITY

Solutions that propel your business while reducing our environmental footprint—and yours.

**Reduction of CO₂ emissions**
Through its Life Cycle Assessment (LCA) System, Canon has lowered CO₂ emissions by more than 30% over previous models by focusing on each stage of the product life cycle, including manufacturing, energy use, and logistics. These products are designed to be compact, with less packaging to make transportation more efficient.

**Eco-friendly design**
Canon is making a difference through creative ecological thinking. The imageRUNNER ADVANCE models employ certain components fabricated with 100% recycled plastic from retired products. Canon’s innovative green technologies also include bio-based plastic, a plant-derived compound that replaces certain petroleum-based plastic parts.

**A greener way to work**
A visionary company, Canon knows that the world and the workplace need a greener workflow. The imageRUNNER ADVANCE Series delivers just that. Now organizations across the globe can seamlessly share and distribute digital documents. And because you can preview files prior to printing, changes can be made before committing toner to paper to avoid print errors. Administrators can even encourage duplex printing to help reduce waste and save paper as well as optimize color usage throughout the enterprise.

**Greater energy efficiency**
From the inside out, the imageRUNNER ADVANCE Series is designed for high energy efficiency and stellar performance. The combination of Canon’s fusing technologies and new pQ toner helps to reduce overall energy consumption by minimizing heat and power requirements. The Series’ new RAPID Fusing Technology reduces power use in digital multifunction systems by up to an astonishing 75% over previous models.* And when devices are in Sleep Mode, power consumption is 1W or less. With advanced technologies present in each model, the Series meet ENERGY STAR® standards.

**Reducing pollution**
All suppliers are required to meet Canon’s stringent Green Procurement policy and environmental terms. This helps Canon exceed the toughest global standards set by the EU RoHS Directive, which requires the restriction of six specified hazardous substances. Canon currently restricts the use of 24 such substances.
