Fire Safety

Safety Tips

- ◆ When the smoke alarm or fire alarm sounds, get out and stay out.
- ◆ Never remove batteries or disable smoke detectors or fire alarms.
- ◆ Stay in the kitchen while cooking.
- ◆ If you live off campus, have a fire escape plan with two ways out.
- ◆ Never overload electrical outlets and check campus rules for approved electrical appliances.
- ◆ Know your building evacuation route.
- ◆ Participate in fire drills as if they were the real thing.
- ◆ Don't prop doors open, it can contribute to fire spread.
- ◆ Please don't charge items with lithium batteries such as phones, electric scooters, etc. overnight or unattended.
- ◆ Be sure to know where all the smoke detectors and/or fire alarms are installed in your living space. There should be one in each sleeping room, as well as outside every sleeping area.

Fire Fact:

5 of 6

**fires in dorms are
started by cooking.**
