2011 RESTROOM STATUS

	All restrooms accessible.		
	One restroom for each sex accessible within the group. Signs at non-compliant restrooms direct to compliant room. * See note below		
	Funded restroom barrier removal project.		
	Restroom barrier removal waiting funding.		Restroom barrier removal waiting funding, non-instructional.
	Non-state, accessible.		Non-state, non-accessible.
	NOT APPLICABLE, no restrooms.		

GENERAL NOTES

— The 'groups' developed by the Facility Access Committee in 1995 were utilized and each restroom was assigned to a group. A group is defined as a collection of restrooms that can be accessed barrier free via interior corridors, exterior covered corridors or elevators. In most cases a group is a single entire building, but some collections of buildings qualify as a group (#33/#53) and some buildings have more than one group (#14 has three groups).

* NUMBERED NOTES

- 1 -- In the 33-53 Group, only the Men's is accessible, Women's is not funded.
- 2 -- In building 38 only the first floor is accessible, the second floor is another 'group' and is not funded.
- 3 -- Building 20, 20A & the north half of building 14 are in one group. The accessible restrooms are in building 20A.
- 4 -- The basement of the Health Center is in a different group and is not accessible.
- 5 -- The old & new buildings of the Crops Unit are in the same group, the accessible restrooms are in the new building #17J.

Total Restrooms				289		Total Accessible		150

* ADAGG - Restroom surveyed in 2002 and found to be in substantial compliance with ADAAG.

Restrooms constructed 'Post Survey' are assumed to be accessible.

* DSA - Restroom design or redesign plans have been stamped by DSA with a number over 100000 and assumed accessible. 'In Group' means restroom is in a building where some other restroom went through the DSA process.

Other Notes - Staff only restrooms have been excluded
