

Americans with Disabilities Act Transition Plan Barrier Removal Database Project Details Listed by Type

In the Cal Poly Transition Plan the finest division of 'Barrier' is the 'Project'.

For example we would consider 'Inadequate Access to Restrooms in Building 123' to be a 'Barrier' and 'Provide Access to Restrooms in Building 123' to be a 'Project'.

This is an important distinction for you will not find in the Transition Plan the door width, toilet stall dimensions, sink heights etc. of the restrooms in building 123 either before or after. You will find that the barrier is planned to be removed or the barrier has been removed. The detailed plans of all projects are kept permanently in the Facilities Archives.

We feel this makes the Transition Plan a better planning and communications tool.

PROJECT TYPE

Parking Lot Projects

Priorities **Type** 1 **Use** 1 **Severity** na **Program** na

Description New Parking Lots and restriping / regrading existing lots.

PROJECT TYPE**Restroom Access Phase I**

Priorities	Type 2	Use na	Severity na	Program na
-------------------	---------------	---------------	--------------------	-------------------

Description In instructional, public or student services uses AND where restrooms barriers are a major inconvenience or worse, upgrade one set of restrooms in each building and install directional signs at remaining restrooms.

Notes In 1995 a survey was conducted finding 33 sets of restrooms met these criteria. As of this writing, February 2010, 20 sets have been addressed, one set partially addressed (#33), and two are currently being renovated (#26 & #34). Additionally over 25 sets of accessible restrooms have been constructed in post-ADA major capital construction projects throughout campus.

PROJECT TYPE**Restroom Access Phase III / DSA**

Priorities	Type 2	Use na	Severity 4	Program 4
-------------------	---------------	---------------	-------------------	------------------

Description Restroom upgrades not listed in Phase I or II. Normally triggered by a remodel project requiring compliance with state code as enforced by the Department of the State Architect (DSA).

Notes Since there is no Phase I or II project planned or it was completed for the building the barriers are only a minor inconvenience or are solely a state code issue. Removing them will be only be a minor help to program access at best.

PROJECT TYPE

Agricultural Unit Access

Priorities **Type** 2 **Use** 2 **Severity** na **Program** 2

Description Basic Access to Cal Poly's 16 Agricultural Units.

Notes Basic Access to include;
Accessible parking.
Accessible path to 'Main Building'.
Accessible restrooms in Main Building.
Access to all typical office, sales, classroom, meeting rooms, labs, etc. within main building.
Where feasible, access to specialized animal quarters, product / equipment storage and animal / product / equipment processing areas.

Much of this access has been accomplished via total relocation and replacement of the Agricultural Unit.
