See reverse side for instructions.

**DO NOT LOSE THIS CARD**

3/1/07

## **INSTRUCTIONS**

### **DO NOT LOSE THIS CARD**

The Facility Services Department shares your desire to complete the final inspection phase of your project in an expeditious manner. However, prior to approval of final inspection and authorization of electric and gas service connections, the builder is responsible for contacting the individuals listed on the front side of this card and obtaining final unconditional approval from the agency or City Department.

A building inspector will not conduct a final inspection until the appropriate approval signatures have been secured and this form is submitted to the Facility Services Department. A pre-final "punch list" inspection is not to be construed as a final inspection.
