California Polytechnic State University San Luis Obispo (Cal Poly) has partnered with Flywire by peerTransfer to offer an option for international payments (non-USD) made via wire transfer. There are three easy steps to remit payment to Cal Poly.

**Three Easy Steps:**

1. **Step 1: Create user account and start payment process.**

   Connect to Cal Poly’s Flywire account at [https://www.flywire.com/pay/calpoly](https://www.flywire.com/pay/calpoly). Enter payment information and create new user account. For subsequent payments, choose ‘sign into an existing account’.

   Please note exchange amount, date to complete wire transfer at your bank, and potential savings in comparison with other wire transfer options.
Where can I find this information?  
Your Empl ID can be found on your my.calpoly.edu portal, on the ‘Personal Info’ tab.

How is this used?  
Your Empl ID is used to post your payment to the appropriate student account.
Step 2: Make wire transfer.

Make wire transfer at your local bank, online, or over the phone using the wire instructions provided.
Step 3: Track the progress of your payment via the Flywire payment dashboard and your my.calpoly.edu portal.

Flywire by peerTransfer will email you periodic updates or reminders on the progress of your payment. Track and update progress with the payment dashboard.

Completed wire transfers are usually received by Cal Poly within 2 to 3 banking days. Please note: your payment is posted to your student account once received by Cal Poly, not at the time the wire is initiated with your bank. Published fee payment due dates and class cancellation dates should be taken into consideration when making a wire transfer. Fees, Fee Payment Policy, and Cancellation Dates are published quarterly on Cal Poly's website at www.afd.calpoly.edu/fees.

Other payment options (USD) include online payments and in-person payments with the University Cashier. More information available at http://afd.calpoly.edu/Student_Accounts/online_payments.asp.
